

Surface Mount Disk

GLI-SMD6

INSTALL AND MAINTENANCE MANUAL

WARNING

1. Read all instructions.
2. Install in accordance with national and local electrical code regulations.
3. This product is intended to be installed and serviced by a qualified, licensed electrician.
4. Turn off electrical power before installing or servicing luminaire in any way.
5. To reduce the risk of fire and overheating, make sure all connections are tight.

**May result in serious injury or death.
Turn power OFF at circuit breaker
prior to installation or servicing.**

Surface Mount Disk

CAUTION

- Check input voltage before connecting the lamp to avoid damage.
- The installation and removal of lamps require professional technical personnel to operate.
- Check for signs of damage when opening the package. If broken glass is found, reach out for replacement.
- Professional technical personnel is required to operate, install or remove the fixtures.
- To avoid electric shock, turn off all lighting fixtures when connected to the power supply.
- Turn off electricity from main fuse box (or circuit breaker box) before beginning installation by removing fuse (or switching off circuit breaker).
- To avoid serious injury or death from electric shock: DO NOT damage or cut the wire insulation (covering) while installing fixture. DO NOT let wires contact any sharp edged surface to avoid cutting the wire insulation.
- Caution: fire hazard. Buildings built before 1985 commonly have supply wire that is rated for 140°F/60°C. Consult a professional electrician before installing.
- Only connect this fixture to electrical systems with equipment grounding provided. DO NOT use fixture in a two-wire system that is not grounded. DO NOT attempt to install this fixture if you are unsure if your lighting system has a grounding means. Reach out to a qualified, licensed electrician to know if you have proper grounding methods according to your area's local electrical code.

INSTALLATION INSTRUCTIONS

PRE-INSTALLATION

Before beginning installation, select the CCT by toggling the dip switch. (Fig. 1)

INSTALLATION INSTRUCTIONS

CEILING MOUNT INSTALLATION

STEP 1

Use two mounting screws to attach mounting plate to the outlet box. (Fig. 2)

STEP 2

Pull out the source wires from the outlet box. Make wire connections using wire connectors as follows:

Connect the black wire from the fixture to the black wire from the power source.

Connect the white wire from the fixture to the white wire from the power source.

Connect the fixture ground wire to the house ground wire. Carefully put the wires back into the outlet box. (Fig. 3)

STEP 3

Attach the fixture to the mounting plate. (Fig.4)

STEP 4

Turn on the power at fuse or circuit box.
